PROFESSIONAL SUMMARY

B.Tech undergraduate and aspiring **Software Engineer** with strong foundations in **frontend web development**, **UI/UX design**, and AI-driven workflow automation. Experienced in building responsive web interfaces, designing high-conversion UI systems, and creating intelligent AI agents using n8n. Passionate about problem-solving, clean design, and building scalable digital solutions. Seeking to expand skills in **full stack development**, including **Node.js**, **Express.js**, and **React.js**.

EDUCATION

B.Tech (Computer Science)

B V Raju Institute of Technology, Narsapur, Hyderabad

2024 – 2028 | CGPA: 8.58

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java

Web Development: **HTML**, **CSS**, **JavaScript**, **React.js**

Databases: SQL++, **MongoDB**, **MySQL**

UI/UX Design: **Figma**, Plugins, Mobbin, Spline (3D)

Automation & AI: n8n AI Agent Automation

Backend Development: **Node.js**, **Express.js**

Tools & Platforms: VS Code, Google Colab, Airtable, MS Word, PowerPoint

Media Tools: CapCut, Canva, Photopea

PROJECTS

Netflix Clone

☐ Developed a Netflix-inspired responsive web interface using HTML and CSS, closely replicating layout and styling of the original platform.

Spotify Clone

☐ Built a Spotify-like frontend UI using HTML and CSS with focus on layout structure and visual consistency.

Autonomous Gmail-to-Airtable AI Agent

☐ Designed an AI agent that reads Gmail messages, generates intelligent replies, and logs structured data into Airtable using n8n automation.

Customer Feedback Handling AI Agent

☐ Created an AI-powered feedback system that classifies customer responses and routes

complaints and feature requests directly to Slack channels with automated replies.

High-Conversion Digital Agency Website Design

□ Designed a clean, conversion-focused digital agency website interface using Figma with structured layouts and optimized user flow.

Dark-Themed Motion-Driven Website Interfaces

□ Designed and prototyped multiple dark-themed, motion-driven website interfaces using Figma and Spline, emphasizing animations and immersive visuals.

Parallax Animation UI Website

□ Designed a minimal parallax-scrolling UI interface highlighting smooth motion and interaction design using Figma.

Full Stack E-commerce Platform

□ Developed a full stack e-commerce platform using React.js for the frontend, Node.js and Express.js for the backend, and MongoDB for the database. Implemented user authentication, product management, and payment integration.

Real-time Chat Application

□ Built a real-time chat application using Express.js and WebSockets, enabling users to send and receive messages instantly. Integrated user authentication and message history using MySQL.

Task Management System

□ Created a task management system with a React.js frontend and a Node.js backend. Implemented features such as task creation, assignment, and progress tracking, with data stored in MySQL.

CERTIFICATIONS & ACHIEVEMENTS

- Delegate, BVRIT Model United Nations (MUN) 2025 – AIIPM Committee
- Infosys Springboard – Basics of Python Certification
- Infosys Springboard – Fundamentals of Java Certification
- SQL Bootcamp – LetsUpgrade
- HTML & CSS Bootcamp – LetsUpgrade (99% Score)
- DSA Bootcamp – Unstop (In Progress)
- **Meta Front-End Developer Professional Certificate**
- **MongoDB University Developer Certification**
- **AWS Cloud Practitioner Certification**

SOFT SKILLS

Communication • Teamwork • DSA Problem Solving • Time Management • Adaptability • Strong Work Ethic
